BARBOURVILLE, KY., FRIDAY, JULY 23, 1920

ONE DOLLAR AND FIFTY CENTS A YEAR IN ADVANCE

ENTERTAINMENT OF  
VISITING TEACHERS

Tuesday Evening Entertainment. This year an effort was made to show the esteem in which the teachers of the County are held by offering them social courtesies. The two Banks took this in hand Tuesday night when they entertained the teachers and a number of citizens at the Baptist Church. All visitors were first served with delicious punch after which they assembled in the church where inspiring talks were made by Gov. J. D. Black and Hon. J. M. Robison. Gov. Black stressed the importance of guarding ones standard of conduct and asserted the necessity of keeping up the standard of education, standing by the law of the land, the use of chaste and correct language which has been the great inspiration of the human family, and to teach the children good habits, build character and define thought.

Following beautiful songs by Mrs. R. L. Creal and Mrs. C. F. Rathfon Congressman Robison delivered a humorous as well as instructive address. He first spoke of what the banks mean to a community and the friendly feeling they hold towards teachers who represent progress. Mr. Robison devoted the larger part of his address to Americanism, paying a compliment to the men of the mountains whose Anglo-Saxon blood and ideals are at present and will be in the future the safe-guard of the nation.

The social committee consisted of Mrs. A. W. Hopper, Mrs. W. B. Minton, Judge W. R. Lay, Robert W. Cole and Fred Burman. Their thanks are due to Mrs. R. W. Cole for her splendid assistance with the punch and the young ladies who so graciously served all the evening.

After the address ice-cream was served to all present during which time the teachers and other guests mingled and got acquainted.

Wednesday afternoon a number of our people took the teachers for an auto ride which was greatly enjoyed. A fine feature of the instructive entertainment was an address by Prof. E. E. Ervine, Instructor of the Institute, who told of his experience as a transport Y. M. C. A. worker during the war. Among other pleasanties was being torpedoed and a trip of twenty hours back to Brest in the same vessel.

The speaker showed the magnitude of the Y. M. C. A. works compared with that of other organizations and it is pleasing to note that much of the former criticism of that organization is being softened as it is being realized what the "Y" really meant in the lives of our boys.

On Thursday the hospitable Baptist ladies gathered the teachers under their wing. The young people met on the lawn for social chat after which they witnessed stereoptican pictures relating to the work of the Kentucky Children's Home Society of Louisville to which the school children of the County are asked to contribute \$1,000.00 and which proved very interesting. Delicious ice cream was then served and the guests left, feeling that they had been made thoroughly at home.

## MODEL BAKERY SOLD

W. F. Geyer, of Louisville, has bought the Model Bakery from Jake Denzer. Mr. Geyer knows the business thoroughly and our people may expect first class bread. He ran the Steam Bakery in Harlan and later went to Louisville.

Mr. and Mrs. Geyer have five children two of whom are here with their father. Two others of the family will be here with their mother in two weeks. A son is in the Navy. We are glad to announce that Mr. and Mrs. Denzer will stay in town and have taken five rooms over the Larkin Miller Store. Jake has not yet decided what he will do but we are pleased that he and his wife are to stay in Barbourville as they are good folks.

## JACKSON

Mr. Lee Jackson, aged fifty years, of Flat Lick, passed to eternity Friday morning, July 16th, at 3 o'clock, following an illness of ten days. The funeral was held at Flat Lick by the Oddfellows Sunday, the storm preventing a minister from driving out.

Deceased leaves a wife and several children.

Lee Jackson was a good man and citizen and worked hard for the advancement of Flat Lick and vicinity. He had friends all over and beyond Knox County who will regret his passing.

## CHARLIE MITCHELL

## STRUCK BY LIGHTNING

On Sunday morning about 8:30 o'clock, a heavy peal of thunder swelled and reverberated thru the valley, but no one imagined that the preceding lightning had placed in jeopardy the life of Charlie Mitchell, operator at the L. & N. depot, yet such was the case.

Charlie was finishing a train order when the invisible electric fluid ran along the phone wire and went thru his body. He sprang up and waved his arms under the influence of the powerful shock, but that splendid sense of duty which distinguishes Anglo-Saxon stock rose to the surface and before collapsing he told Will Smith to take no order to the train outside.

The force of the lightning cut open the right shoe in its descent to earth and, the conscious, Charlie's right side was paralyzed. Glomd descended over Barbourville on receipt of the news since Charlie has the high esteem and liking of everyone but, happily, this has been dispelled since he is improving daily, having somewhat regained the use of his arm and can drag the leg along with the aid of a crutch. His eyes are giving considerable trouble, but it is hoped that time and youth will remedy all injuries.

He was taken to a car from his mother's home Tuesday and carried to his own home.

The Mountain Advocate comes to your home each week for \$1.50 a year.

Keep away from temptation.

## TEACHERS' INSTITUTE

The Knox County Teachers' Institute was held here last week in the Baptist Church. Nearly all those who teach in Knox County were present and made an enjoyable week of it. The work as presented by the Bulletin of the State Board of Education was carried out. Numerous visitors were present during the week and made vigorous speeches among the number being: Miss Morehead, of Lexington, who is the State Chairman of the H. C. L.; Mrs. W. Cole, County Chairman of the same commission; Miss Collins, of the Kentucky Children's Home Society; Congressmen Robison and Powers; Governor Black; President Coates, of Eastern Normal School; President Franklin, of Union College; Professor Miller, of Kentucky University and State Supt. Burke, of Newport; Dr. Leslie Logan and Dr. G. H. Allbright gave talks on sanitation that were full of valuable information.

The daily sessions were held in the Baptist Church. Chapel exercises were conducted on Monday morning by Rev. R. L. Creal, of the Baptist Church; on Tuesday morning by Rev. A. H. Davis, of the Methodist Church; on Wednesday morning by Rev. W. B. Minton of the Presbyterian Church; and on Thursday and Friday morning the Instructor conducted the exercises.

The Instructor, Prof. W. E. Ervin of Cooter College, Danville, and Miss Mattie O'Neal, Catlettsburg, were well and favorably impressed with the body of Knox County teachers and enjoyed their week's work to the limit.

The Banks of Barbourville gave an ice cream treat to the teachers on Tuesday evening and a car ride about town on Wednesday afternoon. The members of the Baptist Church gave a social on Thursday night on the campus of the B. H. I.

The teachers adopted a set of the most drastic resolutions ever read before a Knox County Institute, pledging every teacher to teach better schools in Knox County than have been taught heretofore in the County, pledging the moral and political support of the teachers to the officers of the law who enforce the law, emphasizing the school attendance law and the anti-liquor laws and asking the voters of the County to look well this year to the moral and educational record of every candidate who seeks election to the County Board of Education and look well next year to the moral and educational record of every candidate for Circuit Judge, Commonwealth's Attorney, County Judge, County Attorney, Sheriff, Magistrate Constable, and Representative. None but loyal and proven friends of education are to be supported for any of these offices by the Knox County teachers.

The Knox County Teachers' Federation elected officers for the coming year on Thursday. R. N. Baldwin was elected President, and E. V. Osborne was retained another year as Secretary and Treasurer. The executive committee is composed of W. D. Martin, of the First Division; J. H. West, of the Second Division; James H. Warren, of the Third Division; E. C. Hopper, of the Fourth Division; C. H. Humfleet, of the Fifth Division; J. M. Hennett, of the Sixth Division.

NO TEARS, NO GOODBYE

George (Dad) Hammus was arrested some weeks ago and confined in the City jail on a number of charges. Parkey Payne also drew quarters in the same hospitable mansion on the charge of lifting, conveying or swiping a mauls, commonly a Kentucky nightingale. Well, George and Parkey failed to appreciate life as they were living it and on Saturday night they broke the bonds of boredom by bending the window bars of their prison until they were able to squeeze thru. Now they are treading their native heath watching the sun rise and set just as it used to in those older days before the grim law laid hands on them.

## BUYS HARLAN MINE.

The Banner Fork Coal Corporation in Harlan County, K., was purchased by the Ford Motor Company of Detroit, for \$1,500,000. The payment—\$1,000,000 in cash and \$500,000 in notes—was made thru a local bank—Louisville Herald.

RESOLUTIONS PASSED AT THE  
TEACHERS' INSTITUTE

We, your Committee, desire to submit the following resolutions:

1. — We have been uplifted and inspired by the helpful and timely instruction that has been given to us this week by both of our splendid and efficient instructors and we heartily commend both Prof. W. E. Ervin, of Danville, and Miss Mattie O'Neal, of Catlettsburg, to any County Superintendent who may need their services.

2. — We extend our thanks to Miss Myra Antis for furnishing music upon the piano during the sessions of this Institute; also, we thank Mrs. Creal, Miss Davis, Mrs. Rathfon for beautiful solos.

3. — We thank the ministers of the town of Barbourville, to wit: Revs. Creal, Davis, and Minton, for leading our devotional exercises.

4. — We thank the congregation and the officers and pastor of the Baptist Church of Barbourville for the use of their building during the past week.

5. — We have enjoyed and have been greatly benefited by the addresses that have been given to us by Miss Morehead, Mrs. Cole, Miss Collins, Congressmen Powers and Robison, Governor Black, President Coates, President Franklin, Professors Miller and Burke and Dr. Allbright and Dr. Logan.

6. — We appreciate the token of friendship for the school teachers of Knox County as expressed by the Banks of Barbourville in their treat of punch and ice cream on Tuesday evening and the car ride furnished by them to the teachers on Wednesday afternoon. For this token we return our heartfelt thanks and to pay the debt we owe for this treat and ride in the only kind of pay the Banks expect or desire, we pledge ourselves individually to teach better schools in Knox County this year than have ever been taught in our County heretofore.

7. — We enjoyed the social on the B. H. I. campus on Thursday evening and we thank the members of the Barbourville Baptist Church for this delightful entertainment and we also enjoyed the instructive picture shown at that time and place by Miss Collins.

8. — We are mindful of the benefit according to the teachers of the public schools and the cause of education in Kentucky because of new school laws enacted by the 1920 session of the General Assembly and we thank the members of the body who voted in favor of any or all of these measures, especially our State Representative, S. M. Hennett and Senator White L. Moss who represented Knox County in the House and the Senate, respectively, and who did such valuable work in putting across this much needed legislation.

9. — We believe that the Knox County Teachers' Federation was instrumental in securing the educational reforms put into the statute books of Kentucky by the 1920 session of the General Assembly and we beseech every teacher in the County to become a member of this Federation, that they each pay to the Treasurer the membership fee and that each and every member co-operate with the Chairman of his respective Educational Division and with the County officers of this Federation in a campaign of education among the citizens of Knox County for the purpose of arousing better interest among the people in behalf of a strict enforcement of all laws that may be found upon our statute books, particularly the enforcement of the attendance law and the anti-liquor laws; also to let this campaign be for the purpose of popularizing the cause of the public schools and for the giving of the people the facts concerning the work of teachers and enlisting public sympathy in favor of better salaries for teachers; longer terms for the public schools and better roads, better methods of agriculture, better homes, better social conditions and a general awakening of the public conscience and the public interest in favor of putting Knox County into the fore-front among the counties of the State in the matter of educational progress.

10. — We ask each officer of the law in Knox County to do his or her full and complete duty in the enforcement of all laws on our statute books, whether they be school laws, State laws or federal laws, and we pledge to each and all of them our every moral and political support as long as they may faithfully do their duty but we hold in store for them and each of them our frown of disapproval should any be found to be unfaithful servants. This frown of disapproval shall continue until every officer who fails to do his duty in the matter of enforcing the law is laid in the political shelf and punished in the courts for malfeasance or nonfeasance as the case may be. The time is now here when the law must be enforced with all vigor. "The officer who fails to enforce the law is worse than the man who breaks it."

PROFESSOR W. H. BUCK  
INTERVIEWED

We had the pleasure of meeting Prof. W. H. Buck, the new Principal of Barbourville Schools who has an engaging smile. Mr. Buck has long been connected with the school of Northern Kentucky and has had a varied experience, including the headship of three colleges, Normal School being and has headed schools in three large towns.

Further, Mr. Buck has enthusiasm and the good prospects for building up a big public school system in Barbourville which should contribute to the welfare of our children. He finds a pleasing assurance of public backing in the popular support now given to our schools. In our towns the schools are cheered to death but he finds the sentiment here still for better schools. This is proved by the present school board and plans for the future. Their ambitious to put in such a public school system that will be equal to anything in the country. He looks forward to a successful future for the schools which will be the result of the organization of the faculty as effected last week.

## METHODIST LADIES AID

The Ladies Aid Society of the M. P. Church met Friday afternoon, into the home of Mrs. J. F. Miller for the business session with the usual formalities. The members adjourned to meet with Mrs. M. C. Davis Friday, Aug. 6th. A very pleasant social hour was spent and the hostess, assisted by Mrs. Archibald, served delicious refreshments. Mrs. Davis is a member of Louisville, who joined the afternoon.

#### FREE SCHOLARSHIPS FOR EX-SERVICE PEOPLE

Extract From Senate Bill No. 26

According to the provision of the  
above named act, every person who  
was engaged in the military service  
or naval service of the United States  
during the war with Germany, and  
who was at the time of his enlistment  
a resident of the State of Kentucky,  
is entitled to free scholarship in  
either the State University or the  
Eastern Kentucky State Normal  
School as he or she may choose for  
a period required to complete the  
course of study selected. This schol-  
arship includes free tuition, mat-  
riculation and other fees, room rent,  
fuel and light and other advantages  
and privileges of the University of  
either of the State Normal Schools,  
but the same does not include free  
board. All beneficiaries of the schol-  
arship before mentioned who con-  
tinue their study for a consecutive  
school year or ten months are en-  
titled to their actual traveling ex-  
penses in going to and returning  
from the school of their choice once  
each year during said year.

In order to be entitled to this free  
scholarship, the applicant must file  
his application for admission at least  
thirty days prior to the beginning  
of the semester of the school year  
in which he decides to enter, which  
application shall be accompanied by  
his certificate of honorable discharge  
which shall be returned to him or  
her upon admittance.

## NOTED ENGINEER OUT WITH FACTS

Says the Results He Got From  
Tanlac Were Nothing Less  
Than Wonderful

Captain Andy Ospring, engineer  
on the Pennsylvania railroad, pulling  
the fast train known as the  
Keystone Express between Terre  
Haute and St. Louis, declares that  
the results he has received from Tan-  
lac are nothing less than wonderful.

Captain Ospring has been engi-  
neer on the Pennsylvania railroad  
for the past forty years and is one  
of the best known and most popular  
men in the service of this road.  
His home address is 629 North 10th  
Street, East St. Louis. Relating his  
experience with Tanlac to friends in  
Terre Haute, a few days ago, Cap-  
tain Ospring said:

"Tanlac will alwys get a good re-  
commendation from me for the re-  
sults I have received from it are  
nothing less than wonderful. Before  
taking this medicine I had suffered  
from weak stomach, loss of appetite,  
sluggish liver and a run-down con-  
dition for several years. I could  
never enjoy anything to eat, suffered  
with severe pains in my back and  
chest, and was continually losing  
weight. The pains in my back were  
so severe that I could hardly bend  
over, couldn't even sit comfortably  
in my cab, and invariably flushed  
my run all tired out. I had gotten  
to where I dreaded to make my  
runs and had lost several trips on  
account of feeling so bad.

"I had taken lots of different  
kinds of medicines, but all failed un-  
til I found Tanlac. A friend of  
mine in Terre Haute put me on to  
Tanlac and that was the turning  
point with me. Three bottles of this  
medicine have fixed me up in fine  
shape and my weight has been in-  
creased eleven pounds. I have a fine  
appetite, don't have a pain of any  
kind, and feel all of fifteen years  
younger. I make my trips regularly  
without losing any time, and come in  
from my runs without feeling all  
tired out like I used to. A medicine  
that will do such things is certainly  
worth while and I will always say a  
good word for Tanlac."

Tanlac is sold in Barbourville by  
the Cut Rate Drug Co.; in Artemus  
by J. G. Haskins; and in Perman by  
N. J. Faulkner & Co.—Adv.

# FARM - CROP and Farming Implements At Public Auction THURSDAY, JULY 29, 11 A.M.

Having decided to sell all my farming interests and devote my entire time to the practice of medicine at Evarts, Ky., I will, at the above time, sell my farm, crops and farming implements, located on the

Blackwater Road, Near Tuttle Post Office

8 miles from Gray; 12 miles from Corbin; 12 miles from London and 12 miles from Barbourville, near the Daniel Boone Highway.

## Description of Farm

This farm consists of 75 acres and has been into three farms of 25 acres each.

TRACT No. 1 Is all in timothy and clover hay and there is not a better stand, nor none cleaner and freer from weeds and white top in the whole State.

TRACT No. 2 Has 8 acres in corn and is undoubtedly the most advanced and the best and heaviest piece of corn we have seen in the entire State, also Irish potatoes and the rest in Hay; has a good barn 56 x 70 feet on it, also a hog and sheep barn on it and a No. 1 Orchard.

TRACT No. 3 Is all in Timothy and Clover Hay and positively the cleanest hay we have seen in our entire life; will almost reach to a man's shoulder.

Each and every tract will raise tobacco or anything that will grow in this climate and the barn can easily be converted into a tobacco barn. Is well fenced with one-half mile of woven wire fencing with locust posts and the rest of the fencing a good rail fence. Five acres of number one timber, including all kinds of trees. 1 fish pond 3 good springs; 3 bored wells. Oil and coal have been found on the farm. Good Church right on the place with Sundav School every Sunday and Church service every two weeks. School just one-half mile from the farm at Tuttle Post Office. Stores and blacksmith shop handy. Midway between two good colleges, one at Barbourville, the other at London. No better neighborhood, or community in which to live, can be found. Two years ago this farm raised, among other crops, \$1600.00 worth of wheat and straw. Another year \$750.00 each of potatoes and turnips. This land has a pipe clay sub-soil and a loamy top soil. Five car loads of hay raised on this place last year; and no more productive soil can be found in the entire State of Kentucky. It will make a most excellent stock and poultry farm and is ideally located for sheep raising.

500 Bales of Hay — None Better or Cleaner to be Found. Will be Sold at the Above Time and Place and Delivered Free of Charge to the Purchaser, F. O. B. Cars at Grays, Ky.

#### Five Minute Chats on Our Presidents

By JAMES MORGAN

(Copyright, 1920, by James Morgan.)

#### A MAN AFOOT

1797-1801—Vice president.  
1801—Inaugurated third president, aged 57.  
1803—Purchased Louisiana.  
1807—Enforced Embargo act.  
1809—Retired to Monticello.  
1826—July 4, died, aged 83.

THE furious storm roused by the combat between Thomas Jefferson and Alexander Hamilton, the greatest gladiators to face each other in the arena of American politics, makes our recent campaigns seem like sunshowers.

Hamiltonians scorned to eat and drink, and sometimes even to pray, with the Jeffersonians. To give a daughter in marriage with one of them was almost abhorred as miscegenation.

Nothing else so stirs the angry passions as a conflict of classes or of sections. This was both doubly bitter. An almost solid South united with the Northern masses in a common dread of a strong government and in a common hostility to the old ruling caste in the middle states and New England. The new parties called themselves Federalists and Republicans.

In the first battle, when these parties fought for the chair of Washington in 1796, the result was so close that Jefferson came within two elec-

Thomas Jefferson.

toral votes of winning the presidency against Adams. In the second battle, which was waged in 1800, he beat Adams.

Contrary to the familiar story of his hitching his horse to the capitol fence, Jefferson walked to his inauguration and afterward walked back to his boarding house, which was only a few hundred yards away. This man, afoot, dreamer and theorist, quietly ushered in that day a more lasting revolution than a man on horseback could have wrought with a sword and blith of grapeshot.

Believing that revolutions should begin at home Jefferson revolutionized the White House by casting aside the ceremonials which had been adopted in a feeble imitation of kingly courts. Opening the doors to all, without regard to social classifications and without order of precedence, his rule was "first come, first served." Determined that the president, as he said, should

resemble a personage, he stopped the custom of celebrating president's birthday, never made a public tour, did his own marketing and went and came like any other citizen. Although no successor has thrown a British minister into a fit of indignation by reviving him in slippers feet, Jeffersonian simplicity rather more than Washingtonian courtliness remains the standard of presidential conduct.

It was the strange fortune of this most thoroughgoing pacifist to find himself at the helm in the midst of a world at war. When the globe was bristling with bayonets until it looked like a porcupine, he calmly announced that peace was his passion, and started out by cutting down his little army one-half and by talking of hauling up its seven warships. His only interest in the Napoleonic struggle was to keep out of it.

Nevertheless while the military powers were fighting over little islands and provinces and drenching Europe with their blood, this most unilitary president, without firing a shot, gathered in far richer spoils than the victors in twenty-five years of warfare divided among themselves at the congress of Vienna. As Jefferson's election was a bloodless revolution, his purchase of the immense empire of Louisiana, which doubled the territory of the United States, was a bloodless conquest, the greatest peaceful annexation the world ever saw. Having made it, the flag was no more than hoisted on the farther bank of the Mississippi than he dispatched Lewis and Clark and Captain Pike boldly to spy out the unexplored rivers and mountains of the new soil, so honestly won, and from which so many free states were to spring.

Jefferson is the only president who remained the leader of his party after leaving the White House. Indeed, the Democrats never have ceased to swear allegiance to his spirit.

#### Can There Be Thought Without Brain?

Most of the scientists agree that there can be no thought without a living brain, yet some of the best scholars argue that before the appearance of man, nature was far more intelligent than we are at the present day, and from a logical standpoint it seems reasonable to suppose they are right. No machinery created by man ever worked half so perfectly as the planets of our solar system as they rush over their orbits around the sun. In the forests of our globe nature has achieved the most marvelous inventions in the way of plants, animals and insects. The laws of gravitation, attraction and repulsion, and the phenomena of life and death are beyond the comprehensibility of man, yet they are manifestations of an intelligence far superior to the workings of my human brain. The creation of man and the workings of his brain should, alone, be sufficient evidence of pre-existent thought.

#### Ancient Nuremberg Token.

Crushed and battered, a rare coin has been discovered in a garden at Llanfair, a village near the Roman city of Caerwent, midway between Chepstow and Newport. It has proved, after careful examination, to be a Nuremberg token, and was minted in 1540 by Christopher Schutz (who was born at Aanaherg), at Tintern, whence a few years previously the monks had been driven out. Schutz found the mill ponds and fish ponds left by the monks ready to his hand; from the forest of Dean he obtained his iron and wood for charcoal from the forest of Westford, which is in the neighborhood of Llanfair. Cases are on record of Nuremberg coins having been discovered in London, and as far north as Lincoln, but this is the first instance of such a coin token being found in the western counties or in south Wales.—London Times.

#### May Be Pirate's Hoard.

Henry Johnson, the chief man at Orange Town, Island of St. Eustatius, was digging a post hole a few years ago and turned up a small, sealed earthen jar, which was filled with old coins. They were Japanese pieces 200 years old, relics of the trade which the Dutch were among the first to establish with the far east. These were said to have been buried when a black pirate buried his drinking, blasphemous crew ashore for a night's orgy. Another story of the Japanese coins is that some Kittifonian or Bermudian, waxing rich in contraband trade in his neutral port, exchanged the dollars and eagles he had gained from America for Japanese gold at the money merchants, thereby eluding the clutches of the British admiral, Lord Rodney, who raided the Island in 1781.

#### 65,000 EMPLOYEES

#### HAULED BY TRUCK

Twenty-two rubber companies in Akron confronted with the problem of transporting 65,000 employees to and from work during the street car strike, operated several hundred motor trucks on schedules that enabled them to move the large force of people without loss of time.

Trucks and busses owned by the Goodyear Tire Rubber Company hauled approximately 4,000 people during each of the shifts at 7 A. M., 3:30 P. M. and 12 o'clock midnight. In addition they handled the crowds from the general office and factory office at 4:30 P. M.

M. D. Scott, transportation engineer for the Goodyear, divided the city into zones and routed the vehicles over the principal streets with dispatchers stationed at congested points to load the crowds and keep the trucks moving.

Each truck bore a sign indicating the route it traveled. They were parked near the factory by curb stone standards which also told the route it followed.

Drivers for all these vehicles slept in Goodyear Hall near the factory during the strike. Extra crews kept the trucks in operation over night owl runs.

The service maintained won the praise of all car riders as it was not restricted to company employees.

It was estimated that Goodyear hauled 20,000 people a day in its vehicles during the strike.

One of the innovations of the strike was the mustering into service of the new Goodyear six-wheel motor vehicle. Equipped with a special street car body it is probably the largest motor bus in America. With pay-as-you-enter arrangement, upholstered seats and complete equipment, it seats 44 passengers. Including standing room, it will accommodate comfortably approximately 90. The tandem rear axle arrangement made possible greater traction and easier riding, and enabled the huge bus to carry enormous loads during the strike. — Goodyear News Service.

Miss Mary Agnes Hildrick has returned from Wyoming where she had the time of her life in company with her aunt, Miss Ruth Hildrick. While there she saw an Indian dance listened to the wild howl of the coyote, rode the bronco that bucketh except when a pretty and gentle young lady is riding, and generally speaking, found the wild and wooly westerners very lovely people. Her mother, Mrs. C. F. Hildrick, and Mrs. Ed Dishman met Miss Mary in Chicago on her return.

J. C. Davis is back from Eastern Kentucky State Normal, Richmond, where eighteen Knox Countians also went for the summer session. Some of whom were Nured Detherage, Jack, Merle, Gladys and Gwendolyn Gray, Prof. D. M. Hindeet, Prof. R. E. Burnett, George Ryder, Clara and Ethel Campbell and Celia Carr. Mr. Davis will teach at Gholms this fall and continue his work at Richmond during the remainder of the school year. He considers Richmond a fine school.

### FRANKLIN EFFICIENCY

### MRS. MOREHEAD'S WORK

Unlike other automobiles, the Franklin is not dependent upon the forward rush of the car for cooling efficiency.

It was to prove that the Franklin air-cooling system operates with absolute independence of external conditions that Eugene Martin of San Diego, Cal., backed his Touring Car to the peak of Soledad Mountain.

The mountain trail, which is about two miles long, includes grades from 13 to 33 per cent. Three observers who watched the car perform on the two-mile, backward, low-gear climb, lifted the hood when the peak was reached and attested to the fact that the temperature of the Franklin engine was no different when driven forward under the same conditions.

The only moving part of the Franklin cooling system is a turbine fan that draws the fresh cool air thru the grill in front of the hood, over the cylinder fins, and expels the hot air in sufficient quantity to insure efficient cooling, no matter which way the car is driven.

## IF WOMEN

### ONLY KNEW

What a Heap of Happiness It Would Bring Barbourville Homes

Hard to do housework with an aching back.

Brings to you hours of misery at leisure or at work.

If women only knew the cause—that

Backache pains often come from weak kidneys.

"Twould save much needless woe: Doan's Kidney Pills are for weak kidneys.

Ask your neighbor.

Read what a Barbourville citizen says:—

Mrs. Chas. Wilson says:— "My health was run down and I felt dull and languid and tired easily. I did not care to do my housework and suffered with severe headaches. My back was sore and lame and I had dizzy headaches and dark spots floated before my eyes. My kidneys didn't act right and my limbs ached and pained. When I read of Doan's kidney Pills, I got some from the Costellow Drug Co. They soon rid me of the backaches and regulated my kidneys."

Price 60¢ at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wilson had. Foster-Millburn Co., Mfrs., Buffalo, N. Y. Adv.

### CIVIC LEAGUE MEETING

The Civic League met July 15th with Mrs. W. B. Minton, on College Ave. The minutes of last three meetings were read and approved. Mrs. W. B. Minton made an informal report of the address that Miss Morehead made before the Teachers' Institute. Mrs. R. W. Cole is County Chairman of this work—the campaign against the high cost of living and Mrs. Morehead is State Chairman. Mrs. Burman presented the first lessons on Citizenship and Mrs. J. D. Black read a paper on "Primaries in Kentucky."

By unanimous vote it was decided to ask a local leader of each of the Political Parties to address the ladies on the principles of his party. This is not to be a debate but on different evenings these lectures will be given as instruction so the new voters can inform themselves and decide where they care to be identified.

Mrs. Creal sang two charming little songs and Mrs. Cramer sang several folk songs in Swedish, Danish and Norwegian—she speaks them all equally well—which were very pleasant. Punch was served by the hostess during a pleasant social hour. The next meeting will be with Mrs. L. L. Richardson on College Avenue, July 29th.

### THE NEW SCHOOL ATTENDANCE LAW

This year a new compulsory school attendance law goes into effect in the whole State of Kentucky. This law was passed last winter by the General Assembly and is just as binding as any other law on the statute books.

The law that says "Thou shalt not kill your child's chance to be somebody" is just as binding as the law that says "Thou shalt not take thy neighbor's life."

It is on the statute book and every executive and judicial officer in Kentucky has sworn to uphold and execute this law just the same as he upholds and executes all other laws. If any County Superintendent, County Judge, Magistrate, Sheriff, Constable, Grand Jury Man, County or Commonwealth's Attorney should dislike this law and desire to not enforce it is the duty of such officer to resign his office at once and permit some friend of the law to enforce it.

If any officer should fail to do his duty in enforcing this law he is guilty of misfeasance in office and also has committed the crime of perjury, because he has failed to keep his oath of office.

Any person so failing should be indicted, tried and convicted, removed from office and placed upon the political shelf and be forever kept out of office by the righteous rage of free and progressive people.

No other law placed upon the statute book during the past quarter of a century is calculated to do so much for Kentucky's children as is this new attendance law.

It will be extremely difficult to enforce. It needs one attendance officer in each educational division and one head attendance officer over and above them all.

The people have been threatened so long and fooled so long by the dilatory tactics of certain persons whose duty it was to enforce this law that the popular notion is that the law cannot be enforced. This pretended bluff has made the law ten times as hard to enforce as it otherwise would have been.

The County Board of Education should therefore put seven of the best men in the County to work enforcing this law. Fewer than seven in Knox County will be simply and only to bring the law into disrepute and contempt.

In 1918 I was Truant Officer for Bell County. I worked day and night for three months. I quit when I took the "flu." The schools quit at the same time. I visited sixty-four schools, secured 10 convictions for violations of the attendance law. The average daily increase of attendance for July, August and September, 1918, above the same three months in 1917 was more than 2,000. 2,000 multiplied by \$10 (the financial value of one day in school) gives a product of \$20,000.

My services were worth to the county of Bell \$20,000 daily or \$1,200,000 for three school months. This \$1,200,000 should be divided by 10 (the number of convictions) and we have a dividend of \$120,000 the value of one conviction to Bell County.

If seven Truant Officers could do as well in Knox County as I did in Bell County they would all amply earn their salaries, let them be ever so much. There is no reason at all why each of them could not do as well as I did.

No, this is not a plea to the County Board to make a place for me. I would not accept a job as Truant Officer should the Board desire that I do so. I have a better job.

This is a plea for the children of Knox County. This is a plea that they be given a chance to go to school—a chance equal to the children of Ohio, Indiana, Illinois and every other northern State.

Very kindly,  
R. N. BALDWIN.

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at all. Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui."

### HOW TO BECOME A NURSE

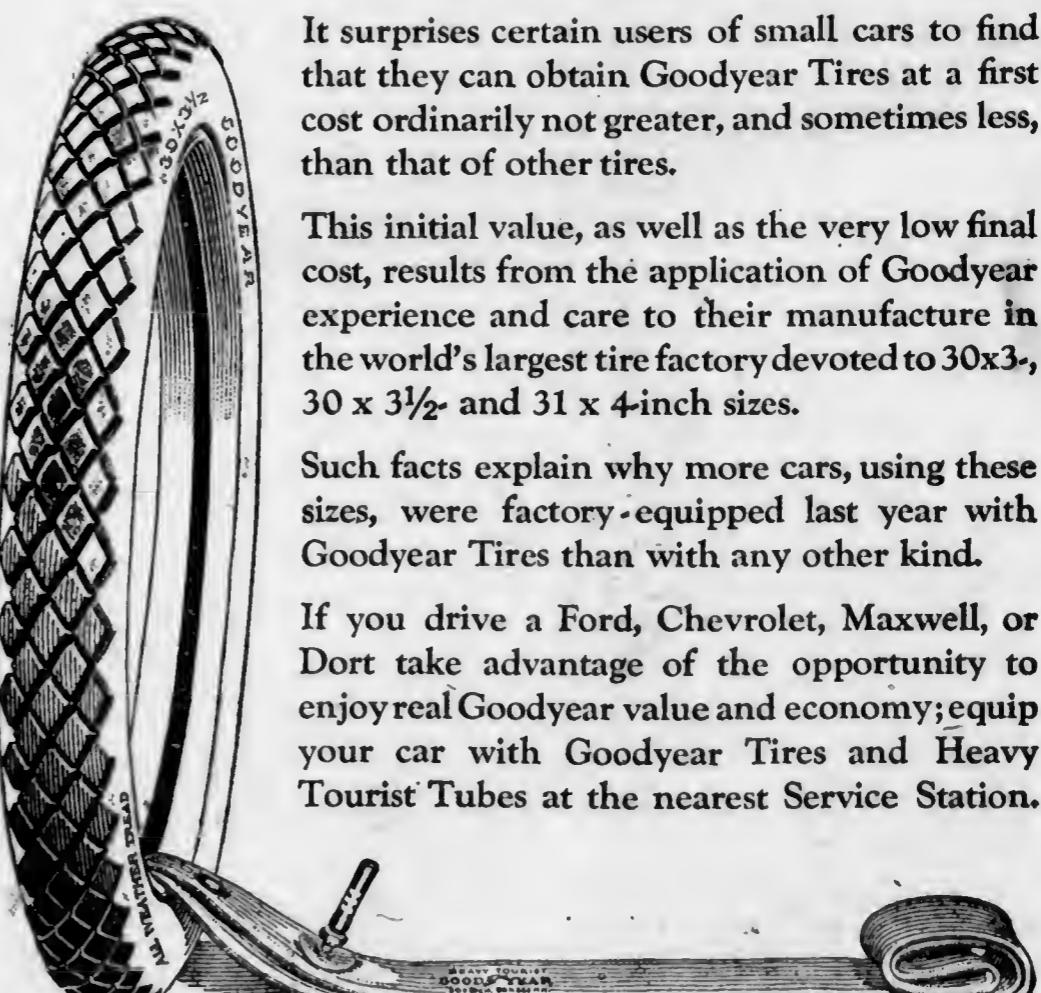

Any woman with intelligence and "motherly" instinct can learn to be a practical nurse and earn from fifteen to twenty-five dollars a week. If you cannot spend three years in a hospital or are past the hospital age, study a common-sense book called "Nursing in the Home," by Lee H. Smith, M. D. This book is written in a way that is easy to comprehend. It will teach you how to recognize different diseases; how to take temperature; how to take care of fever patients; how to give baths; all about the sick room. It treats of burns and scalds, broken limbs, bleeding from wounds (bandaging) drowning, fainting—almost every contingency is covered.

Many pages are devoted to Hygiene, Anatomy, Physiology and Medicine. It contains advice for mothers and tells how to care for infants.

This 600-page book, bound in handsome red cloth, is worth \$2.00 but for a limited time can be secured by sending fifty cents to the publishers, World's Medical Press, 662 Washington Street, Buffalo, N. Y. —Adv.

## Ride on Goodyear Tires in That Sturdy Small Car of Yours

It surprises certain users of small cars to find that they can obtain Goodyear Tires at a first cost ordinarily not greater, and sometimes less, than that of other tires.

This initial value, as well as the very low final cost, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to 30x3, 30 x 3 1/2 and 31 x 4-inch sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell, or Dort take advantage of the opportunity to enjoy real Goodyear value and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at the nearest Service Station.
